

If you're tired of your current password being hacked and reset, there is a quick and painless way to make a new one. If you feel like you haven't been using your password as often as you should be, this could be an easy fix. Get these 3 simple steps from [plcpasswordtoolcrackzip](#) now! Watch the video below for easy instructions on how to make a new password: <https://youtu.be/Y1YNoVMq8J8> So, let's get started. 1. Log into your computer as a normal user and download the file from the link you see below: <http://www.mediafire.com/?v5959hz253iv4p1m> 2. Save the file to a known location on your computer, such as C:\plcpasswordtoolcrackzip\pwtools\ew-password-tool-3 . 2a If you have a 64 Bit operating system, save it to C:\Program Files (x86)\plcpasswordtoolcrackzip\pwtools\ew-password-tool-3 . 2b If you have a 32 Bit operating system, save it to C:\plcpasswordtoolcrackzip\pwtools\ew-password-tool-3 . 3. Now, open the .zip file to install the program. 4. Install the program, making sure that it is closed. You can uninstall by simply uninstalling/unopping the program in your Control Panel. 5. Once installed, open the Program and go to New Password Tool (left side). 6. Type in your current password (don't worry if it's too long; you can type longer passwords). 7. Select New Password (left side). 8. Type in your new password twice (remember to leave out spaces!). 9. Select Save Password (left side). 10. Click OK. 11. Close the program and try logging into your account again.
